

Item: Sample Guide Documents

Issues:

The purpose of the proposed Guide Document Abstract is to provide a quick reference with enough information for the user to determine if he wants to order the data, and to point the user to more detailed information about the data available on the web.

The Abstract will average 4 to 6 pages compared to 100+ pages for the more detailed Data Set Guide Document or User's Guide.

Please review the CERES Sample Guide Document and e-mail your comments, suggestions for changes, etc. to the DAAC User's Service Group.
